OUR HISTORY

Excellence Since 1981

Jordan Industrial Petrochemical Co. Ltd. (JIPCO) is a privately held manufacturing company established in 1981, with over four decades of experience in developing and producing trusted chemical and consumer brands. Headquartered in Jordan, JIPCO has built a strong reputation in local and regional markets for consistency, reliability, and disciplined execution, operating in line with stringent quality, safety, and regulatory standards.

At the core of JIPCO's portfolio is aerosol manufacturing, with a particular focus on insecticides and public health pesticides, supported by complementary product lines including liquid detergents, degreasers, solvents, air care, and personal care products. Our products are manufactured on modern, fully automated production lines designed to ensure uniform quality and dependable supply.

Alongside its own established brands, JIPCO supports private-label and contract manufacturing partnerships for distributors and brand owners seeking a proven, brand-driven manufacturer. With scalable capacity, licensed filling capabilities, and a long-term partnership mindset, JIPCO offers a dependable platform for sustainable growth built on quality, consistency, and trust.

Key Capabilities

Fully Automatic Production

High-capacity lines ensuring speed and consistency for large orders.

Quality Assurance

Rigorous testing for public health and safety standards.

Global Export Ready

Documentation and packaging optimized for international export.

Compliant and Certified

Meeting international regulatory and safety requirements.

Private Label & Contract

Specialized aerosol production tailored for your brand.

Established Presence

Serving the market for over 45 years with proven reliability.

Diverse Portfolio

We offer a diverse line of existing products and a wide offering of products on demand.
